Effect of roughage : Concentrate ratio on the rumen activity of sheep and goats.

Abstract:
Evaluation of single and mixed feeds through a comparative nutritional study between sheep and goats with reference to the associative effect

Abstract:
Effect of type of ration on finishing rams and bucks

Abstract:
Nutritional studies on four annual fodder crops

Abstract:
Nutritional studies on four annual fodder crops

Abstract:
Nutritional studies on four annual fodder crops

Abstract:
The validity of equations in estimating gross energy, digestable energy and digestable protein of some forages

Abstract:
Evaluation of urea treatment and sinc supplementation in sheep diets

Abstract:
Evaluation of urea treatment and sinc supplementation in sheep diets

Abstract:
Nutritional evaluation of silage from some annual forages

Abstract:
Effect of different dietary fibre and protein levels on performance efficiency of does and litters of New Zealand white rabbits

Abstract:
Evaluation of zinc supplements in urea containing diets of ram lambs performance and body composition

Abstract:
Effect of Dorado forage (Sorghum bicolor) level in rations on ram lambs' performance and their body composition

Abstract:
Evaluation of urea treatment and sinc supplementation in sheep diets.
1. Digestibility coefficients and nutritive values

Abstract:
Nutritional evaluation of dorado forage (sorghum bicolor).
2. Effect of zinc foliar sprays and cutting stages on dorado forage nutritive quality, zinc retention, feed intake and energy and protein yield per feddan

Abstract:
Some nutritional studies on sorghum-102

Abstract:
Nutritional quality, energy and protein yield and carrying capacity of Napier-bajra hybrid, Clitoria and Leucaena as a new forages in Egypt

Abstract:
A study on safflower and sunflower oilseeds supplementation in sheep rations

Abstract:
Effect of roughage to concentrate ratio and zinc supplements on Buffalo bulls growth performance, body composition and profitability

Abstract:
Evaluation of pearl millet, *Pennisetum Americana*, in ruminant nutrition

Abstract:
Effect of sorghum-102 or pearl millet forages on cows lactation performance

Abstract:
The use of whole linseed in sheep diets

Abstract:
A study on Artemisia judaica L. as feed additive in sheep rations

Abstract:
Evaluation of Nigella seeds (Nigella sativa L.) as a feed additive in diets of Nile tilapia (Oreochromis niloticus)

Abstract:
The effect of feeding diets containing Chamomile flowers (Matricaria chamomilla L.) as a feed additive on growth, survival and feed utilization of Nile tilapia (Oreochromis niloticus L.) fingerlings

Abstract:
Abstract:
Effect of Marjoram leaves (Majorana hortensis L.) as a feed additive on the performance of Nile tilapia (Oreochromis niloticus L.) fingerlings

Abstract:
Effect of some medicinal plants as feed additives on performance of growing sheep

Abstract:
Effect of feeding whole cotton and sunflower oilseeds on lactating performance of buffaloes

Abstract:
Abstract:
Effect of using lupin seed containing rations on sheep productive performance

Abstract:
Effect of some medicinal plants as feed additives on performance of lactating buffaloes

Abstract:
Effect of yeast as a probiotic on growth performance and some physiological parameters in Ossimi lambs

Abstract:
Performance of growing male rabbits as affected by feeding system and dietary Nigella sativa seeds supplementation during mild and hot periods of Egypt

Abstract:
Productive and reproductive performance of dairy cows fed corn silage without or with some microbial additives

Abstract:
