Neuromuscular Block during Beating Heart Surgery, Comparison between Pancuronium, Rocuronium, and Cisatracurium

Abstract:
Anaesthesia in Paediatric Patients Undergoing Cardiac Catheterization: Comparison between Dexmedetomidine /Propofol, Fentanyl /Propofol, and Ketamine /Propofol

Abstract:
Prolongation of Caudal Analgesia in Pediatric Surgery: Comparison between Dexmedetomidine, Clonidine, Tramadol, and Fentanyl

Abstract:
Should We Give Combined Antegrade-Retrograde Cardioplegia Rather Than Antegrade Alone in Patients with Left Main Coronary Disease?

Abstract: 

Anaesthesia in Paediatric Patients Undergoing Bronchoscopy: Comparison between Dexmedetomidine/Propofol, and Midazolam/Propofol

Abstract:
Intra-articular Adjuvant Analgesics Following Knee Arthroscopy: Comparison between Dexmedetomidine and Fentanyl

Abstract:
Bispectral Index Monitoring Improves the Cognitive Function After Desflurane –Anaesthesia in Elderly Patients Undergoing Spine Surgery

Abstract:
Comparison of Effects of Peritonsillar Infiltration of Tramadol and Lidocaine in Relief of Post-tonsillectomy Pain

Abstract:
Lingual tonsils hypertrophy; a cause of obstructive sleep apnea in children after adenotonsillectomy: Operative problems and management

Abstract:
Myocardial Preservation in Double Valve Replacement Surgery: Comparison of the Post-operative Clinical Outcome between Histidine-Triptophan-Ketoglutarate Solution and Cold Blood Cardioplegic Solution.

Abstract:
Effect of Vasoactive Drugs on the Accuracy of Arterial Pressure-Based Cardiac Output Measurements in Open Heart Surgery

Abstract:
