Abstract:
Time Evolution of Fast Particles During the Decay of Hadronic Systems

Abstract:
High Energy Nucleus-Nucleus Collisions In View Of The Multi-Peripheral Model

Abstract:
Enhanced Structure Function Of The Nucleon From Deep Inelastic Electron-Proton Scattering

Abstract:
Electron - Proton Scattering as a Probe of Nucleon Structure

Abstract:
Monte Carlo Generator for High Energy Nucleus-Nucleus Collision

Abstract:
High Energy Electron Proton Scattering in View of Born Approximation

Abstract:
High Energy Electron Proton Scattering in View of Born Approximation

Abstract:
Multi-Cluster model in Hadron Nucleus Interactions At High Energies

Abstract:
Fireball Production in Proton-Proton and Proton-Nucleus Collisions At high Energies

Abstract:
The growth of Particle production during the evolution of hadrons through nuclear matter
