Excel Help

visual basic

- Run a macro
- Run a macro by pressing a CTRL combination shortcut key
- Run a macro by clicking a button on the Quick Access Toolbar
- Run a macro by clicking a button in a custom group on the ribbon
- Run a macro by clicking an area on a graphic object
- Configure a macro to run automatically upon opening a workbook

Run a macro

- If the **Developer** tab is not available, do the following to display it:
 - Click the **File** tab, click **Options**, and then click the **Customize Ribbon** category.
 - In the **Main Tabs** list, select the **Developer** check box, and then click **OK**.
- To set the security level temporarily to enable all macros, do the following:
 - On the **Developer** tab, in the **Code** group, click **Macro Security**.
 - In the **Macro Settings** category, under **Macro Settings**, click **Enable all macros (not recommended; potentially dangerous code can run)**, and then click **OK**.
