Abstract:
The offering of Sbt or wnSb is one of the important offerings depicted on the walls of Egyptian temples from the 18th Dynasty until the Greco-Roman periods. Previous studies have classified this tool as one of the time-measuring tools developed by the ancient Egyptians, which is sometimes disagree with the texts inscribed on the walls of temples of the Greek and Roman era in Egypt, which explain the nature of this tool and its function in a manner contrary to what has been reported in previous studies. The aim of this study is to re-shed light on this sacred instrument, its nature and its symbolic significance.
