#### **Abstract:**

This paper presents three rounded-topped stelae from Abydos. The first one belongs to a lady of the house *TAY-kA*. It is stored in the Grand Egyptian Museum holds the number (GEM 12918). The second is an unfinished stela, stored holds has the number (GEM 12919); the third one is the stela of *Ab xnsw ir(t) b(int)* carries the number (GEM 12857). The primary purpose of this paper is to study and publish the stelae where the inscriptions have some interesting features in the sign spellings, formulae, and scribal errors. In addition, it investigates the stelae's dates, the basis of stylistic features, and orthography. The stelae can be dated back to the late 25<sup>th</sup> Dynasty/ early 26<sup>th</sup> Dynasty.
