The title of study "Sibawayh in the rules of the hunt for Ibn Iyaz" to address the views of Sibawayh in the book of the rules of the hunt for Ibn Iyaz, and the way Ibn Iyaz presented those views, and the position of Ibn Iyaz from the views of Sibawayh, and the opinion of the researcher in each of the issues presented. This research came in an introduction in which I presented to the previous studies, the research components, and the reasons for the selection of the subject, and a preamble entitled "Ibn Iyaz methodology in the presentation of the views of Sibawayh" and then the issues were: mark the expression of Muthanna, and the occurrence that after he thought and her sisters, and delete the additive in appreciation. The name does not negate the sex between the expression and construction, and delete T feminization of the act, and the entry of the fulfillment of the news that, and bear the source of conscience, and build any, and the effect with him, the exception with "Khala", and the jurisdiction of perhaps the actual wholesale, and raise the novice neighbor and entrained when they progress, and delete Revenue of the name connected, and the exception is provided and delayed his name, and express the name after if.

In conclusion, I mentioned the results of the research, the most important of which was that Sibawayh had a profound influence on the thought of Ibn Iyaz, and that Iyaz was in favor of Sibawayh in many of his issues, and disagreeing with some of them.
