Arts, Fayoum University - the eighth issue. June 2013**

.....  
The research highlights the method of Ibn Farhoun in the book "The advice of the counselor and the amusement of the neighbor" "Nassihat al-Mushawer wa Tasliyat al-Mujawer", which is a history of the honorable city, by: organizing the scientific material in the book, which included a lot of historical and cultural information that Not limited to the honorable city, but also many countries of the world. And from the temporal point of view it extended from the era of prophecy until the seventh and eighth centuries .AH in which the author lived

The information about the city had the greatest share, and it had a great deal of trust and honesty, since the author was an eyewitness to many of .the events he mentioned in his book

The research also dealt with the method of the author in the biographies, both in his method in arranging it, or its various elements, such as: the need to mention the Nickname, the kunya, as well as the eminent scientific status .or administrative positions, and Checking the date of birth and death, etc

The research also discussed the sources on which the author depended, which included the works of the formers, documents and inscriptions, .contemporary and visual, audio sources, and so on

The research also discussed the author's method of using his sources, in .addition to historical criticism in the book

The research concludes by mentioning the mistakes that were made by both the author and the investigator
