

## **University libraries: a comparative study of legislation**

The University Library of the cultural facilities that will play a prominent role in the improvement of university level on the one hand, and the development of scientific research on the other hand, depending on the developments that have defined the functions and operations through the passage of time. After that was the beginning of just a place to save the intellectual production, and place and accessible to researchers, it became must now cope with the variables of the age, and became an active cell, lively, renewed, and a center is necessary to save the information operations, organize, analyze, and disseminate, at the university level and academic, which kept pace with the modern trend in judgment and identification of university ranking worldwide

University libraries can play a developmental role leading local to its community, providing human and material support to help solve some of the associated literacy alphabetic or illiterate computer problems, or those associated with the development of scientific research by providing access to data and to provide the necessary support for training bases to sail those rules and how to access the required information, and how to insert a reference to the citations are taken from available sources of information Interlacing electronic environment. And can not for libraries, which provide sources of information that lead that role, but the existence of regulations and legislation regulating the work within the libraries so the importance of the study came in identifying legislation university libraries in Egypt and the world through the inventory of legislation to university libraries, which is located within the top 500 universities in the world bearing in mind that the distribution of the continents of the world

1. Identify the legislation university libraries in Egypt and the world

2. to identify the strengths and weaknesses in the university libraries

legislation under study

Trying to visualize what could be the university libraries legislation in Egypt in general and Fayoum University, in particular in the light of the new reality to judge the scientific research institutions and university entrance race to win the best 500 universities in the world, and in light of some of the solutions tested in the countries
