

## **Spirituality of the Body and Physicality of the Soul in Emir Abdelkader El-Djezairi**

The concept of the spirituality of the body and the physicality of the soul is of great importance to Emir Abdelkader El-Djezairi, as he was concerned with the study of man with all his aspects: soul and body, the apparent and the hidden, for the achievement of spiritual perfection given to man by God as a privilege over all other creatures. An analytical comparative method was used in this research.
