**DOI:** [10.22436/jmcs.032.03.01](https://doi.org/10.22436/jmcs.032.03.01)

**Abstract.** In this paper, we will generate some fractional Liendler type inequalities by using integration by parts, chain rule and Hölder inequality on conformable fractional calculus. As a special case, we obtain some formulas of Liendler type inequalities at  $\alpha = 1$ .
