3. **Project title:** Egyptian E-Election
4. **Team work :**

   1-Asmaa Hamdy Ali
   2-Basma Ismail Abd Al zaher
   3-Gehad Ahmed Mohmmed
   4-Fatma Ali Abd Allah
   5-Fadwa Ahmed Kotb
   6-Hadeer Magdy Mohmmed

   Supervisor: Dr. Mohammed Khafagy

5. **Aim of the Project :**

The main objectives of system for E-Election are:

- The main objective to develop the system is to make the accurate & efficient elections at different time and different situations. The existing system is manual so there are a lot of problems as mentioned before. Now there is a need to automate the whole process so as to make it more easy, secure and accurate.
- System should support multi-user environment.
- System should be fully automated.

- System should provide concrete security features like registers voters and assigning privileges to voters of the system.
- System should be capable to keep track of all the detailed descriptions of the client and the whole details of services.
- Various outputs (reports) should be available online.
- System should be able to handle extremely large volumes of data (i.e. Large database support)

6. Abstract:

E-Election Is an online website that helps elector to deal with elections easily and votes electronically by following steps:

1. View candidate's information, CVs and programs.

2. Enter the SSN and a passcode.

3. Choose the desired candidates.

4. Match the postcode with the postcode in the DB depending on the SSN.

5. If the steps have done successfully, confirmation message will appear and saved in the DB.

6. If there is a problem, an error message will appear.
