

Neuroscience II & SS

1st week

	Practical 8.30 – 10.30		Lecture 10.30-12	Break 12– 12.30	lecture 12.30 – 1.30	lecture 1.30-2.30	Tutorial 2.30.-4
Sun 21/9			Department: histology Lecture: Introduction & tracts of spinal cord Lecturer: Dr nehad		Department: Physiology Lecture: Stretch reflex and the polysynaptic reflexes Lecturer: Dr Dina		<u>Elective</u>
mon 22/9			Department: Anatomy Lecture: Spinal cord Lecturer: dr yasmine		Pathology Diseases of Peripheral nerves Lecturer: dr hala	Histology Lecture: Level s of spinal cord Lecturer: dr ramadan	Department: Anatomy Lecture: Spinal cord Lecturer: dr ramadan
tues 23/9	Phys A, B		Department: pharmacology Lecture: Opioid analgesics and antagonists 1 Lecturer: dr sara		Department: pharmacology Lecture: Opioid analgesics and antagonists 2 Lecturer: dr sara		<u>Elective</u>
wed 24/9	Phys C,D, E	Ana A,B	Department: physiology Lecture: Motor areas pyramidal and extra pyramidal tracts Lecturer: Dr Dina		Department: physiology Lecture: Motor function of the brain stem , thalamus and hypothalamus Lecturer: Dr. Dina		
thurs 25/9	Phys A, B	Ana C,d, E	Department: histology Lecture: Medulla & pons Lecturer: Dr noha		Department: anatomy Lecture: brain stem Lecturer: Dr yasmine		Clinical case

2nd week

	Practical 8.30-10.30		Lecture 10.30-12	Break 12:12. .30	Lecture 12.30- 1.30	Lecture 1.30- 2.30	Tutorial 2.30: -4
sat 27/9	Phys C, d, E	Ana t A,B	Department: histology Lecture: Mid-brain& pathways from face& head. Lecturer: Dr doaa		Department: anatomy Lecture: cerebellum Lecturer: Dr asmaa		
Sun 28/9	Ana C,D,E		Department: pharmacology Lecture: Sedative- hypnotic drugs Lecturer: Dr Eman ahmed		Department: anatomy Lecture: 4 Th Ventricle Lecturer: Dr Esraa		elective
Mon 29/9	Ana A,B		Department: physiology Lecture: Basal ganglia Lecturer: Dr Dina		Department: pharmacology Lecture: Lecturer:		
Tues 30/9	Ana C,D,E		Department: microbiology Lecture: Meningitis Lecturer: Dr hanaa		Department: anatomy Lecture: cerebral hemisphere (1) Lecturer: Dr eman ali		
Wed 1/10			Department: microbiology Lecture: tetanus Lecturer: Dr Enas		Department: physiology Lecture: Cerebellum Lecturer: Dr Dina		
Thursday 2/10			Department: histology Lecture: Auditory, visual and vestibular pathways, cerebellum		Department: anatomy Lecture: cerebral hemisphere (2) Lecturer: Dr shaimaa		Clinical case

3rd week

	Practical 8.30-10.30		Lecture 10.30-12	Break 12.- - 12.30	12.30- 1.30	1.30- 2.30	Tutorial 2.30- 4
sat 4/10	Ana A,B	Micro C,D,E	Department: histology Lecture: Cerebrum, meninges & BBB Lecturer: Dr marwa		Department: anatomy Lecture: white matter Lecturer: Dr Moh. sofy	Department: anatomy Lecture: basal ganglion Lecturer: Dr Sofy	
sun 5/10	Ana C,D,E	Micro A,B	Department: pharmacology Lecture: parkinsonism 1 Lecturer: Dr ghada		Department: pharmacology Lecture: parkinsonism 2 Lecturer: Dr ghada		
mon 6/10		Histo C,D,E	Department: anatomy Lecture: diencep halon, 3 rd ventricle Lecturer: Dr shaimaa		Department: physiology Lecture: The basal ganglia Lecturer: Dr dina		
tues 7/10		Hist A,B	Department: microbiology Lecture: polio, rabies Lecturer: Dr selvana		Department: anatomy Lecture: lat. Ventricle, CSF Lecturer: Dr asmaa		
wed 8/10	Phys C,D,E	Path A,B	Department: pathology Lecture: inflam mation of CNS Lecturer: Dr Alaa		Department: physiology Lecture: The physiological anatomy and refractive media of the eye (1) Lecturer: Dr Amy		
Thur 9/10	Phys A,B	Path C,D,E	Department: pharmacology Lecture: antiepileptics		Department: pharmacology Lecture: antiepileptics Lecturer: Dr usama	Clinical case	

			Lecturer: Dr			
--	--	--	---------------------	--	--	--

4th week

	Practical 8.30-10.30		Lecture 10.30-12	Break 12-12.30	Lecture 12.30- 1.30	Lecture 1.30-2.30	Tutorial 2.30- 4
Sat 11/10	Phys C,D, E		Department: histology Lecture: fibrous layer of eye Lecturer: Dr marwa		Department: pathology Lecture: CNS tumours 1 Lecturer: Dr Alaa		Elective
Sun 12/10	Phys A,B		Department: anatomy Lecture: blood supply Lecturer: Dr esraa		Department: physiology Lecture: The physiological anatomy and refractive media of the eye (2) Lecturer: Dr Amy		
Monday 13/10	Phys A,B,	Ana A,B	Department: physiology Lecture: The Hypothalamus, and the Limbic System Lecturer: Dr dina		Department: pharmacology Lecture: Antidepressant drugs Lecturer: dr dina		
Tues 14/10	Phys C,D, E	Ana C,D,E	Department: pathology Lecture: CNS tumours 2 Lecturer: Dr Zahraa		Department: pathology Lecture: The hydrocephalus Lecturer: Dr Zahraa		
wed 15/10	Phys A,B		Department: pharmacology Lecture: Antipsychot ic drugs and lithium Lecturer dr samar		Department :physiology Lecture: The physiology of hearing (1) Lecturer: Dr Amany		
Thursday 16/10	Phys C,D, E		Department: histology Lecture: External & middle ear (histo) Lecturer: Dr		REVISION		

			Mariham		
<u>5th week</u>					
1					
Sat 18/10	Ana A,B		Department: histology Lecture: vascular layer of eye Lecturer: Dr Doaa		
Sun 19/10	Ana C,D, E	Phys A,B,	Department: microbiology Lecture: conjunctivitis and ear infection Lecturer: Dr Mohamed saad	Department :physiology Lecture: The retina Lecturer: Dr Amy	
Mon 20/10	Phys C,D, E		Department: pharmacology Lecture: Local anesthesia Lecturer: Dr samar nagueb	Department: anatomy Lecture: ear, eye Lecturer: Dr Maha	
Tues 21/10	CBL		Department: pharmacology Lecture eye Lecturer: Dr shaimaa	Department: pharmacology Lecture: general anesthesia Lecturer: dr eman	
Wed 22/10		Phar ma A, B Eye	CBL	Department :physiology Lecture: The physiology of hearing (2) Lecturer: Dr Amany	
Thurs 23/10	Phar ma C, D, E (eye)		REVISION
