

GIT Module (Group I)

(20/9/2025 - 23/10/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (1)	Saturday 20/9/2025	Department: Internal Medicine Topic: Basics and history taking Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Basics and symptomatology Lecturer: Dr. Mohamed Elgmmal
	Sunday 21/9/2025	Department: Internal Medicine Topic: Bacterial infections Lecturer: Dr. Abdelrahman Ahmed	Department: Endemic Medicine Topic: Symptomatology, Clinical examination Lecturer: Dr. Ahmed Saleh
	Monday 22/9/2025	Department: Internal Medicine Topic: Vomiting Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: General examination Lecturer: Dr. Mohamed Elgmmal
	Tuesday 23/9/2025	Department: Endemic Medicine Topic: Hepatomegaly, ultrasound Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Sepsis Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 24/9/2025	Department: Internal Medicine Topic: Acute liver diseases Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Abdominal inspection Lecturer: Dr. Mohamed Hafez
	Thursday 25/9/2025	Department: Internal Medicine Topic: Approach to a case of abdominal pain Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Peptic ulcer disease Lecturer: Dr. Mohamed Hafez

GIT Module (Group I)

(20/9/2025 - 23/10/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (2)	Saturday 27/9/2025	Department: Internal Medicine Topic: Elevated liver enzymes Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Abdominal palpation Lecturer: Dr. Mohamed Elgmmal
	Sunday 28/9/2025	Department: Internal Medicine Topic: Viral infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: MASH Lecturer: Prof. Ahmed Ali Gomaa
	Monday 29/9/2025	Department: Internal Medicine Topic: Acute diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: GERD, achalasia Lecturer: Dr. Mohamed Elgmmal
	Tuesday 30/9/2025	Department: Endemic Medicine Topic: Splenomegaly, EGD Lecturer: Dr. Sayed Hanzal	Department: Internal Medicine Topic: Parasitic infestations Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 1/10/2025	Department: Internal Medicine Topic: Chronic liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Abdominal percussion and auscultation Lecturer: Dr. Mohamed Hafez
	Thursday 2/10/2025	Department: Internal Medicine Topic: Liver cell failure Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Upper GIT bleeding Lecturer: Dr. Mohamed Hafez

GIT Module (Group I)

(20/9/2025 - 23/10/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (3)	Saturday 4/10/2025	Department: Internal Medicine Topic: Investigations of liver diseases Lecturer: Dr. Abdelrahman Ahmed	Department: Internal Medicine Topic: Abdominal palpation Lecturer: Dr. Abdelrahman Ahmed
	Sunday 5/10/2025	Department: Internal Medicine Topic: FUO, pattern of fever Lecturer: Dr. Mohamed Hafez	Department: Endemic Medicine Topic: Portal HTN and Upper GIT bleeding Lecturer: Dr. Sayed Hanzal
	Monday 6/10/2025	Department: Internal Medicine Topic: Constipation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: IBD Lecturer: Dr. Mohamed Elgmmal
	Tuesday 7/10/2025	Department: Endemic Medicine Topic: Jaundice, colonoscopy Lecturer: Dr. Eman Mahmoud	Department: Internal Medicine Topic: Joint examination Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 8/10/2025	Department: Internal Medicine Topic: Liver cirrhosis Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Case of liver cirrhosis Lecturer: Dr. Mohamed Elgmmal
	Thursday 9/10/2025	Department: Internal Medicine Topic: Approach to a case of disturbed conscious level Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: IBS Lecturer: Dr. Mohamed Hafez

GIT Module (Group I)

(20/9/2025 - 23/10/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (4)	Saturday 11/10/2025	Department: Internal Medicine Topic: Gall bladder diseases Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Pancreatic diseases Lecturer: Dr. Mohamed Hafez
	Sunday 12/10/2025	Department: Internal Medicine Topic: Fungal infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: endemic Medicine Topic: Liver cirrhosis, Liver cell failure Lecturer: Dr. Eman Mahmoud
	Monday 13/10/2025	Department: Internal Medicine Topic: Chronic diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Approach to patient with hepatomegaly Lecturer: Dr. Mohamed Elgmmal
	Tuesday 14/10/2025	Department: Endemic Medicine Topic: Ascites, paracentesis Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Antimicrobial resistance Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 15/10/2025	Department: Internal Medicine Topic: Wilson disease, hereditary hemochromatosis Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Approach to patient with ascites Lecturer: Dr. Mohamed Hafez
	Thursday 16/10/2025	Department: Internal Medicine Topic: Approach to patient with lymphadenopathy Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Malabsorption, Lecturer: Dr. Mohamed Hafez

GIT Module (Group I)

(20/9/2025 - 23/10/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (5)	Saturday 18/10/2025	Department: Internal Medicine Topic: Liver transplantation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: NAFLD Lecturer: Dr. Mohamed Elgmmal
	Sunday 19/10/2025	Department: Internal Medicine Topic: Protozoal infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: Ulcerative colitis and Crohn's disease Lecturer: Dr. Manar Sayed
	Monday 20/10/2025	Department: Internal Medicine Topic: Joint examination Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Clinical examination of patients with infectious diseases Lecturer: Dr. Mohamed Elgmmal
	Tuesday 21/10/2025	Department: Endemic Medicine Topic: Clinical revision, ERCP Lecturer: Dr. Ahmed Saleh	Department: Internal Medicine Topic: Lymphadenopathy Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 22/10/2025	Department: Internal Medicine Topic: Lower GIT bleeding Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Revision Lecturer: Dr. Mohamed Hafez
	Thursday 23/10/2025	Department: Internal Medicine Topic: Revision Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: GIT neoplasm Lecturer: Dr. Mohamed Hafez

End module Exam Group (I): 26/10/2025

Coordinator
Dr. Mohamed Elgmmal

Head of Internal medicine department
Professor Dr. Mohamed Mashahet

GIT Module (Group II)

(27/10/2025 - 27/11/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (1)	Monday 27/10/2025	Department: Internal Medicine Topic: Basics and history taking Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Basics and symptomatology Lecturer: Dr. Mohamed Elgmmal
	Tuesday 28/10/2025	Department: Endemic Medicine Topic: Hepatomegaly Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Sepsis Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 29/10/2025	Department: Internal Medicine Topic: Acute liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: General examination Lecturer: Dr. Mohamed Hafez
	Thursday 30/10/2025	Department: Internal Medicine Topic: Approach to a case of abdominal pain Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Peptic ulcer disease Lecturer: Dr. Mohamed Hafez
	Saturday 1/11/2025	Department: Internal Medicine Topic: Elevated liver enzymes Lecturer: Dr. Mohammed Elgmmal	Department: Internal Medicine Topic: Abdominal inspection Lecturer: Dr. Mohammed Elgmmal
	Sunday 2/11/2025	Department: Internal Medicine Topic: Approach to a case of abdominal pain Lecturer: Dr. Abdelrahman Ahmed	Department: Endemic Medicine Topic: MASH Lecturer: Prof. Ahmed Ali Gomaa

GIT Module (Group II)

(27/10/2025 -27/11/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (2)	Monday 3/11/2025	Department: Internal Medicine Topic: Acute diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: GERD, achalasia Lecturer: Dr. Mohamed Elgmmal
	Tuesday 4/11/2025	Department: Internal Medicine Topic: Splenomegaly Lecturer: Dr. Sayed Hanzal	Department: Internal Medicine Topic: Parasitic infestation Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 5/11/2025	Department: Internal Medicine Topic: Chronic liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Abdominal percussion and auscultation Lecturer: Dr. Mohamed Hafez
	Thursday 6/11/2025	Department: Internal Medicine Topic: Liver cell failure Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Upper GIT bleeding Lecturer: Dr. Mohamed Hafez
	Saturday 8/11/2025	Department: Internal Medicine Topic: Investigations of liver diseases Lecturer: Dr. Abdelrahman Ahmed	Department: Internal Medicine Topic: Autoimmune liver disease Lecturer: Dr. Abdelrahman Ahmed
	Sunday 9/11/2025	Department: Internal Medicine Topic: Bacterial infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: Clinical examination Lecturer: Dr. Ahmed Saleh

GIT Module (Group II)

(27/10/2025 -27/11/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (3)	Monday 10/11/2025	Department: Internal Medicine Topic: constipation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: IBD Lecturer: Dr. Mohamed Elgmmal
	Tuesday 11/11/2025	Department: Endemic Medicine Topic: Jaundice and colonoscopy Lecturer: Dr. Eman Mahmoud	Department: Endemic Medicine Topic: Antimicrobial resistance Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 12/11/2025	Department: Internal Medicine Topic: Liver cirrhosis Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Case of liver cirrhosis Lecturer: Dr. Mohamed Elgmmal
	Thursday 13/11/2025	Department: Internal Medicine Topic: Approach to a case of disturbed conscious level Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: IBS Lecturer: Dr. Mohamed Hafez
	Saturday 15/11/2025	Department: Internal Medicine Topic: Gall bladder diseases Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Pancreatic diseases Lecturer: Dr. Mohamed Hafez
	Sunday 16/11/2025	Department: Internal Medicine Topic: FUO, pattern of fever Lecturer: Dr. Mohamed Hafez	Department: Endemic Medicine Topic: Portal HTN Lecturer: Dr. Sayed Hanzal

GIT Module (Group II)

(27/10/2025 -27/11/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (4)	Monday 17/11/2025	Department: Internal Medicine Topic: Chronic diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Approach to patient with hepatomegaly Lecturer: Dr. Mohamed Elgmmal
	Tuesday 18/11/2025	Department: Endemic Medicine Topic: Ascites, paracentesis Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Lymphadenopathy Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 19/11/2025	Department: Internal Medicine Topic: Wilson disease, hereditary hemochromatosis Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Approach to patient with ascites Lecturer: Dr. Mohamed Hafez
	Thursday 20/11/2025	Department: Endemic Medicine Topic: Approach to patient with splenomegaly & lymphadenopathy Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Malabsorption Lecturer: Dr. Mohamed Hafez
	Saturday 22/11/2025	Department: Internal Medicine Topic: Liver transplantation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: NAFLD Lecturer: Dr. Mohamed Elgmmal
	Sunday 23/11/2025	Department: Internal Medicine Topic: Protozoal infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Internal Medicine Topic: Malabsorption, Lecturer: Dr. Manar Sayed

GIT Module (Group II)

(27/10/2025 -27/11/2025)

	Date	Lecture 9-11	Clinical 11-1
Week (5)	Monday 24/11/2025	Department: Internal Medicine Topic: Joint examination Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Clinical examination of patients with infectious diseases Lecturer: Dr. Mohamed Elgmmal
	Tuesday 25/11/2025	Department: Endemic Medicine Topic: Clinical revision Lecturer: Dr. Ahmed Saleh	Department: Internal Medicine Topic: Portal HTN Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 26/11/2025	Department: Internal Medicine Topic: Lower GIT bleeding Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Revision Lecturer: Dr. Mohamed Hafez
	Thursday 27/11/2025	Department: Internal Medicine Topic: Revision Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: GIT neoplasm Lecturer: Dr. Mohamed Hafez

End module Exam Group (II): 30/11/2025

Coordinator
Dr. Mohamed Elgmmal

Head of Internal medicine department
Professor Dr. Mohamed Mashahet

GIT Module (Group III)

(1/12/2025 - 1/1/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (1)	Monday 1/12/2025	Department: Internal Medicine Topic: Basics and history taking Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Basics and symptomatology Lecturer: Dr. Mohamed Elgmmal
	Tuesday 2/12/2025	Department: Endemic Medicine Topic: Hepatomegaly Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Sepsis Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 3/12/2025	Department: Internal Medicine Topic: Acute liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: General examination Lecturer: Dr. Mohamed Hafez
	Thursday 4/12/2025	Department: Internal Medicine Topic: Approach to a case of abdominal pain Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Peptic ulcer disease Lecturer: Dr. Mohamed Hafez
	Saturday 6/12/2025	Department: Internal Medicine Topic: Elevated liver enzymes Lecturer: Dr. Mohammed Elgmmal	Department: Internal Medicine Topic: Abdominal inspection Lecturer: Dr. Mohammed Elgmmal
	Sunday 7/12/2025	Department: Internal Medicine Topic: Approach to a case of abdominal pain Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: MASH Lecturer: Prof. Ahmed Ali Gomaa

GIT Module (Group III)

(1/12/2025 - 1/1/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (2)	Monday 8/12/2025	Department: Internal Medicine Topic: Acute diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: GERD, achalasia Lecturer: Dr. Mohamed Elgmmal
	Tuesday 9/12/2025	Department: Endemic Medicine Topic: Splenomegaly Lecturer: Dr. Sayed Hanzal	Department: Endemic Medicine Topic: Parasitic infestation Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 10/12/2025	Department: Internal Medicine Topic: Chronic liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Abdominal percussion and auscultation Lecturer: Dr. Mohamed Hafez
	Thursday 11/12/2025	Department: Internal Medicine Topic: Liver cell failure Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Upper GIT bleeding Lecturer: Dr. Mohamed Hafez
	Saturday 13/12/2025	Department: Internal Medicine Topic: Investigations of liver diseases Lecturer: Dr. Abdelrahman Ahmed	Department: Internal Medicine Topic: Autoimmune liver disease Lecturer: Dr. Abdelrahman Ahmed
	Sunday 14/12/2025	Department: Internal Medicine Topic: Bacterial infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: Clinical examination Lecturer: Dr. Ahmed Saleh

GIT Module (Group III)

(1/12/2025 -1/1/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (3)	Monday 15/12/2025	Department: Internal Medicine Topic: Constipation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: IBD Lecturer: Dr. Mohamed Elgmmal
	Tuesday 16/12/2025	Department: Endemic Medicine Topic: Jaundice and colonoscopy Lecturer: Dr. Eman Mahmoud	Department: Internal Medicine Topic: Antimicrobial resistance Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 17/12/2025	Department: Internal Medicine Topic: Liver cirrhosis Lecturer: Dr. Abdelrahman Ahmed	Department: Internal Medicine Topic: Case of liver cirrhosis Lecturer: Dr. Abdelrahman Ahmed
	Thursday 18/12/2025	Department: Internal Medicine Topic: Approach to a case of disturbed conscious level Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: IBS Lecturer: Dr. Mohamed Hafez
	Saturday 20/12/2025	Department: Internal Medicine Topic: Gall bladder diseases Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Pancreatic diseases Lecturer: Dr. Mohamed Hafez
	Sunday 21/12/2025	Department: Internal Medicine Topic: FUO, pattern of fever Lecturer: Dr. Mohamed Hafez	Department: Endemic Medicine Topic: Portal HTN Lecturer: Dr. Sayed Hanzal

GIT Module (Group III)

(1/12/2025 -1/1/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (4)	Monday 22/12/2025	Department: Internal Medicine Topic: Chronic diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Approach to patient with hepatomegaly Lecturer: Dr. Mohamed Elgmmal
	Tuesday 23/12/2025	Department: Endemic Medicine Topic: Ascites, paracentesis Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Lymphadenopathy Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 24/12/2025	Department: Internal Medicine Topic: Wilson disease, hereditary hemochromatosis Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Approach to patient with ascites Lecturer: Dr. Mohamed Hafez
	Thursday 25/12/2025	Department: Endemic Medicine Topic: Approach to patient with splenomegaly & lymphadenopathy Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Malabsorption Lecturer: Dr. Mohamed Hafez
	Saturday 27/12/2025	Department: Internal Medicine Topic: Liver transplantation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: NAFLD Lecturer: Dr. Mohamed Elgmmal
	Sunday 28/12/2025	Department: Internal Medicine Topic: Protozoal infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: Malabsorption Lecturer: Dr. Manar Sayed

GIT Module (Group III)

(1/12/2025 -1/1/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (5)	Monday 29/12/2025	Department: Internal Medicine Topic: Joint examination Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Clinical examination of patients with infectious diseases Lecturer: Dr. Mohamed Elgmmal
	Tuesday 30/12/2025	Department: Endemic Medicine Topic: Clinical revision Lecturer: Dr. Ahmed Saleh	Department: Internal Medicine Topic: Portal HTN Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 31/12/2025	Department: Internal Medicine Topic: Lower GIT bleeding Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Revision Lecturer: Dr. Mohamed Hafez
	Thursday 1/1/2026	Department: Internal Medicine Topic: Revision Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: GIT neoplasm Lecturer: Dr. Mohamed Hafez

End module Exam Group (III): 4/1/2026

Coordinator
Dr. Mohamed Elgmmal

Head of Internal medicine department
Professor Dr. Mohamed Mashahet

GIT Module (Group IV)

(5/1/2026 - 19/2/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (1)	Monday 5/1/2026	Department: Internal Medicine Topic: Basics and history taking Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Basics and symptomatology Lecturer: Dr. Mohamed Elgmmal
	Tuesday 6/1/2026	Department: Endemic Medicine Topic: Hepatomegaly Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Sepsis Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 7/1/2026	Department: Internal Medicine Topic: Acute liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: General examination Lecturer: Dr. Mohamed Hafez
	Thursday 8/1/2026	Department: Internal medicine Topic: Approach to a case of abdominal pain Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Peptic ulcer disease Lecturer: Mohamed Hafez
	Saturday 10/1/2026	Department: Internal Medicine Topic: Elevated liver enzymes Lecturer: Dr. Mohammed Elgmmal	Department: Internal Medicine Topic: Abdominal inspection Lecturer: Dr. Mohammed Elgmmal
	Sunday 11/1/2026	Department: Internal Medicine Topic: Fever, FUO Lecturer: Dr. Abdelrahman Ahmed	Department: Endemic Medicine Topic: MASH Lecturer: Prof. Ahmed Ali Gomaa

GIT Module (Group IV)

(5/1/2026 -19/2/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (2)	Monday 12/1/2026	Department: Internal Medicine Topic: Acute diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: GERD, achalasia Lecturer: Dr. Mohamed Elgmmal
	Tuesday 13/1/2026	Department: Endemic Medicine Topic: Splenomegaly Lecturer: Dr. Sayed Hanzal	Department: Internal Medicine Topic: Parasitic infestation Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 11/1/2026	Department: Internal Medicine Topic: Chronic liver disease Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Abdominal percussion and auscultation Lecturer: Dr. Mohamed Hafez
	Thursday 15/1/2026	Department: Internal Medicine Topic: Liver cell failure Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: Upper GIT bleeding Lecturer: Dr. Mohamed Hafez
	Saturday 17/1/2026	Department: Internal Medicine Topic: Investigations of liver diseases Lecturer: Dr. Abdelrahman Ahmed	Department: Internal Medicine Topic: Autoimmune liver disease Lecturer: Dr. Abdelrahman Ahmed
	Sunday 18/1/2026	Department: Internal Medicine Topic: Bacterial infections Lecturer: Dr. Abdelrahman Ahmed	Department: Endemic Medicine Topic: Clinical examination Lecturer: Dr. Ahmed Saleh

GIT Module (Group IV)

(5/1/2026 -19/2/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (3)	Monday 19/1/2026	Department: Internal Medicine Topic: Constipation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: IBD Lecturer: Dr. Mohamed Elgmmal
	Tuesday 20/1/2026	Department: Endemic Medicine Topic: Jaundice and colonoscopy Lecturer: Dr. Eman Mahmoud	Department: Internal Medicine Topic: Antimicrobial resistance Lecturer: Prof. Dr. Tarek Ibrahim
	Wednesday 21/1/2026	Department: Internal Medicine Topic: Liver cirrhosis Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Case of liver cirrhosis Lecturer: Dr. Mohamed Hafez
	Thursday 22/1/2026	Department: Internal Medicine Topic: Approach to a case of disturbed conscious level Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: IBS Lecturer: Dr. Mohamed Hafez
	Saturday 7/2/2026	Department: Internal Medicine Topic: Gall bladder diseases Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Pancreatic diseases Lecturer: Dr. Mohamed Hafez
	Sunday 8/2/2026	Department: Internal Medicine Topic: Viral infections Lecturer: Dr. Abdelrahman Ahmed	Department: Endemic Medicine Topic: Portal HTN Lecturer: Dr. Sayed Hanzal

GIT Module (Group IV)

(5/1/2026 -19/2/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (4)	Monday 9/2/2026	Department: Internal Medicine Topic: Chronic diarrhea Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: approach to patient with hepatomegaly Lecturer: Dr. Mohamed Elgmmal
	Tuesday 10/2/2026	Department: Endemic Medicine Topic: Ascites, paracentesis Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Lymphadenopathy Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 11/2/2026	Department: Internal Medicine Topic: Wilson disease, hereditary hemochromatosis Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Approach to patient with ascites Lecturer: Dr. Mohamed Elgmmal
	Thursday 12/2/2026	Department: Endemic Medicine Topic: Approach to patient with splenomegaly & lymphadenopathy Lecturer: Dr. Nancy Abdalla	Department: Internal Medicine Topic: Malabsorption Lecturer: Dr. Mohamed Hafez
	Saturday 14/2/2026	Department: Internal Medicine Topic: Liver transplantation Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: NAFLD Lecturer: Dr. Mohamed Elgmmal
	Sunday 15/2/2026	Department: Internal Medicine Topic: Protozoal infections Lecturer: Prof. Dr. Tarek Ibrahim	Department: Endemic Medicine Topic: Malabsorption Lecturer: Dr. Manar Sayed

GIT Module (Group IV)

(5/1/2026 -19/2/2026)

	Date	Lecture 9-11	Clinical 11-1
Week (5)	Monday 16/2/2026	Department: Internal Medicine Topic: Joint examination Lecturer: Dr. Mohamed Elgmmal	Department: Internal Medicine Topic: Clinical examination of patients with infectious diseases Lecturer: Dr. Mohamed Elgmmal
	Tuesday 17/2/2026	Department: Endemic Medicine Topic: Clinical revision Lecturer: Dr. Ahmed Saleh	Department: Internal Medicine Topic: Portal HTN Lecturer: Dr. Abdelrahman Ahmed
	Wednesday 18/2/2026	Department: Internal Medicine Topic: Lower GIT bleeding Lecturer: Dr. Mohamed Hafez	Department: Internal Medicine Topic: Revision Lecturer: Dr. Mohamed Hafez
	Thursday 19/2/2026	Department: Internal Medicine Topic: Revision Lecturer: Prof. Maher Alamir	Department: Internal Medicine Topic: GIT neoplasm Lecturer: Dr. Mohamed Hafez

End module Exam Group (IV): 22/2/2026

Coordinator
Dr. Mohamed Elgmmal

Head of Internal medicine department
Professor Dr. Mohamed Mashahet
